Berita Sedimentologi

Indonesian Journal of Sedimentary Geology

A scientific Journal published by Indonesian Sedimentologists Forum (FOSI), a commission of the Indonesian Association of Geologist (IAGI)

Berita Sedimentologi was first published in February 1996 as a newsletter for the members of the Indonesia Sedimentologists Forum (Forum Sedimentologiwan Indonesia or FOSI) only. In its first year, *Berita Sedimentologi* was published in Indonesian language, then from 1997 onward this publication uses English as the language of communication.

Frequency of publication is 3 issues per year, usually published in April, August and December of each year.

Topics cover sedimentology and stratigraphy of both siliciclastic and carbonate rocks, depositional processes, but also cover biostratigraphy, geochemistry, basin analysis, geodynamics, petroleum geology and structural geology.

From the Editor

Dear Readers,

This is going to be my last “*From the Editor*” column for **Berita Sedimentologi** as I’m stepping down from Editor-in-Chief role beginning in early 2024. Having served *Berita Sedimentologi* since around 2011, I finally can pass the Chief Editor role on to **Dr. A.M. Surya Nugraha**, one of our young research geoscientists of international caliber. Dr. Nugraha has served *Berita Sedimentologi* as an Associate Editor for several years so I’m sure that our journal will be in a safe hand. His strong research background will be of benefit to improve the quality of our publications.

On this occasion I also want to inform you that **Dr. Tom Reijers** has decided to retire from serving *Berita Sedimentologi* as one of our External Reviewers. Over the years, Dr. Reijers has been instrumental in helping us to review manuscripts particularly those related to carbonate rocks. On behalf of *Berita Sedimentologi* Editorial Team and

FOSI, I would like to thank Dr. Reijers for his time and support. We are really grateful to have him as a reviewer and would like to wish him well during this retirement.

Last but not least, as always, I would like to invite all readers to share their research through publication in *Berita Sedimentologi*. We accept manuscripts of quite wide topic ranges, from sedimentary geology to basin study and petroleum geosciences. We welcome research articles, review articles, short communication notes and field trip reports. Expected manuscripts can be in the form of an extended abstract with a minimum of 4 pages including figures, or a full manuscript. Please contact one of our editors to express your interest in submitting your work to *Berita Sedimentologi*. Bye for now and take care!

Minarwan
Editor-in-Chief

Editorial Board

Minarwan, Ph.D (Editor-in-Chief)
FOSI, Jakarta, Indonesia

Herman Darman, M.Sc (Vice Editor-in-Chief)
Petronas, Kuala Lumpur, Malaysia

Dr. Erlangga Septama (Associate Editor)
Pertamina, Jakarta, Indonesia

Dr. A.M. Surya Nugraha (Associate Editor)
Earth Observatory, Singapore

Agnes Rahayu, S.T. (Lead Layout Editor)
FOSI, Jakarta, Indonesia

Ricky Andrian Tampubolon, M.Sc
Odira Energy Karang Agung, Jakarta, Indonesia

Sukiato Khurniawan, M.Sc.
University of Indonesia, Jakarta, Indonesia

Barry Majeed Hartono, S.T.

About FOSI

The forum was founded in 1995 as the Indonesian Sedimentologists Forum (FOSI). This organization is a communication and discussion forum for geologists, especially for those dealing with sedimentology and sedimentary geology in Indonesia.

The forum was accepted as the sedimentological commission of the Indonesian Association of Geologists (IAGI) in 1996. About 300 members were registered in 1999, including industrial and academic fellows, as well as students.

FOSI has close international relations with the Society of Sedimentary Geology (SEPM) and the International Association of Sedimentologists (IAS).

Fellowship is open to those holding a recognized degree in geology or a cognate subject and non-graduates who have at least two years relevant experience.

FOSI has organized three international conferences in 1999, 2001 and the most recently in 2018.

Most of FOSI administrative work will be handled by the editorial team. IAGI office in Jakarta will help if necessary.

The official website of FOSI is:
<http://www.iagi.or.id/fosi/>

FOSI Membership

Any person who has a background in geoscience and/or is engaged in the practising or teaching of geoscience or its related business may apply for general membership. As the organization has just been restarted, we use [LinkedIn \(www.linkedin.com\)](https://www.linkedin.com) as the main data base platform. We realize that it is not the ideal solution, and we may look for other alternative in the near future. Having said that, for the current situation, LinkedIn is fit for purpose. International members and students are welcome to join the organization.

FOSI - Indonesian Sedimentologists Forum

ABOUT THIS GROUP

FOSI was established in 1995 and became a commission of IAGI (Ikatan Ahli Geologi Indonesia/Indonesian Geologists Association) few years later. The association is aimed as a discussion forum for Sedimentologists in Indonesia, to share experience and knowledge amongst the members. Through the network with international organizations, such as SEPM and IAS, FOSI tries to put Indonesian sedimentary geology into broader perspective.

**FOSI Group Member
as of February 2024:**

1,029 members
